Japhet School offers several different opportunities for tuition assistance on an annual basis in the form of Financial Aid and Merit Scholarships. Tuition assistance may not, by current policy, exceed 50% of tuition.

Financial Aid

Financial Aid refers to need-based awards that reduce the tuition paid by a family. To apply for these funds, families must submit their Re-enrollment Contract along with at least \$100.00 of the \$475.00 deposit to guarantee their child's position, and they must obtain financial aid forms from the Admissions Director. Japhet documents and processes its Financial Aid requests through the School and Student Service for Financial Aid (SSS), a third-party provider for independent schools. Applications may be made in writing or completed online. The online application results in faster processing and reporting to Japhet School. A second short application, which provides the school with a summary of how and when the SSS application was submitted, is also submitted to the Director of Admissions, Robin Pospisil. This piece also provides an opportunity for families to tell the school how much financial aid they are requesting as well as to explain any extenuating circumstances that affect their financial picture beyond the numerical information provided to the SSS. Families will be notified of the school's decision and award in writing in early June.

Merit Scholarships for Current Students

Japhet School also provides Merit Scholarships for both need-based and merit-based candidates. Students must complete the Scholarship Application and meet academic and character qualifications in order to write for these scholarships. Japhet School is currently offering the following Merit Scholarships that do not affect the family's opportunity to also apply for Financial Aid.
