About Japhet:

Founded in 1973, Japhet School is an independent school, serving children the metropolitan Detroit area in preschool through eighth grade. Its mission is to nurture and prepare children for life by integrating character education with a strong academic program. The school provides small classes, which are purposefully designed as "blends" or two-grade classrooms. This setup enables teachers to challenge students with academic material that is appropriate for their intellectual readiness, regardless of age or grade. Integrated with strong academics is Japhet School's national award-winning character education curriculum, which builds a peaceful community within the school and creates leaders with integrity. Japhet is a National School of Character, and was the first school in Michigan -- and the first independent school in the country -- to receive this award.
